**IDGR Registration, Transfer, DNA, Pricing Information**

**Information:**

1. **Breeder** is person who owns dam at time of breeding of animal being registered
2. **Registered Owner** is person who either bred the goat on their farm, or if acquired from someone else, person who is listed as Owner on IDGR-IGSCR records
3. **Change of ownership:** Give away, purchase (any type of purchase), trade, any ownership change
4. **All transfers** must be made from the breeder through to previous to last owner, before animal registered in new owner's name and the IDGR-IGSCR must have receive payments
5. **Identification types** allowed are USDA approved ID: Scrapie Tag, Microchip, Registry Approved Tattoo
6. **If you do not own dam**, one of these documents must be supplied: Lease Agreement signed by dam owner, Artificial Insemination or Embryo Service Memo signed by owner of semen or embryo and person/company doing the implant
7. **If a Grade**, then we may require **IGSCR DNA Breed Analysis and complete verification of lineage/Identification from Breeder signed Application and IGSCR DNA Parentage (if possible) to remove from the Grade herdbook.**
8. DNA Parentage is required on all **Artificial Insemination and Embryo Offspring** and the IGSCR or approved Collections report must be supplied or on file with IGSCR.
9. **For Fullblood/Recovery/Wild Herds herdbooks, IGSCR DNA Breed Analysis or Parentage (of ancestral Breed Analysis on file) is required**
10. **Application Date** starts once all information is submitted.
11. **If false information** given, we reserve right to suspend or revoke Registration Certificate, until information is corrected by breeder/owner/submitter. Fraud gives immediate revoke of Certificates
12. **DNA:** All applications for registration require DNA sent to our office with application or the DNA report. See special instructions below.
13. **If sire or dam** are from another OFFICIAL USDA-APPROVED registry, a copy of the Registration Certificate and possibly a 5 or 6 generation pedigree is required. IGSCR cannot accept a non-USDA-APPROVED Registration Certificate or Pedigree for registration as proof for Registration purposes  
<https://igscr-idgr.square.site/> or Mail Check/Money Order to: IGSCR, PO Box 462, Goshen, UT 84633

**Price Chart (Effective Immediately)**

<b>Registration</b> <b>(These prices are for members. Non-members double price)</b>	<b>Price</b>
<b>Identification Only</b> (Lists Goat and its Identification. Used for non-owner Transport, if SCI owners refuse to submit DNA, Herds not yet enrolled in SCI DNA program) [May include assumed pedigree] Animal will either be given a Registration Number or an Identification Number.	\$3.00 (Digital)      \$4.50 (Paper Copy)
<b>Standard Registration Certificate</b> (Does NOT show DNA Titles.) If you have not paid for the DNA/parentage on animal you are applying for Registration on, you will not receive any DNA Results (SCI goats). After DNA processed, changes may be: <ul style="list-style-type: none"> <li>• Pedigree and/or herdbook changes</li> <li>• Possible temporary suspension of Registration Certificate (not normally done)</li> <li>• In extreme cases, Revoke of the Registration Certificate (Not normally the case)</li> </ul> <b>We recommend that you complete the DNA (for SCI goats BEFORE you submit Application for Registration), so that there are no problems.</b>	\$7.00 (Hard Copy, which includes photo)

<p><b>ELITE Registration Certificate (any Breed or species)</b>  <b>Gold Extensive IGSCR DNA Analyzed &amp; Certified Registration Certificate</b></p> <ul style="list-style-type: none"> <li>• DNA titles and seals</li> <li>• If you are goat owner who paid for DNA, you will receive copy of IDGR DNA Summary</li> <li>• You can feel confident that that your goat is what and who is on the certificate</li> <li>• Your goat should be worth more money and is prized in the conservation program because it is verified and certified</li> <li>• Requirements: IDGR-IGSCR DNA Primary Animal, Parent and Grandparent verified. A few extreme situations the ancestor may not be required if there is no way for that to be accomplished. If a suspect of a recent crossbred, Breed Analysis required</li> </ul>	<p>\$15 (Paper Copy with photo on Certificate ONLY)          (Fullblood of any breed must qualify in Official Registrations as descending only from original animals AND be fully IGSCR DNA tested)</p>
<p><b>Reprint or Duplicate</b></p>	<p>\$4.00</p>
<p><b>Extended Pedigree (without DNA titles) (you must be the goat owner or breeder AND must accept that you will not give copy to other organizations or groups for purpose of extending their pedigree. An extended pedigree may only be given to another OFFICIAL USDA-Approved Registry whom we accept)</b></p>	<p>\$6.00</p>
<p><b>Parent Testing prices (IDGR/UC Davis extensive evaluation. This takes a lot of time and thought) Requires a Mating Pair option, unless that is impossible. If you owned goat at time of testing &amp; paid for testing, you receive IDGR Official DNA Summary certificate. DNA titles on ELITE Certificate.</b></p> <p>(All Parentage and other evaluations must run directly through IGSCR. We do not parent test from private or other organization UC Davis accounts.)          (You will not receive your IDGR DNA Summaries on another person's goat. DNA is a Medical Record.)</p>	<ul style="list-style-type: none"> <li>• 1-2 parent options (included in price of ELITE Registration Certificate)</li> <li>• \$5.00 (animals being parent tested are not registered with IGSCR-IDGR-HDGR)</li> <li>• \$5.00 (3-5 parental options)</li> <li>• \$10 (6-10 parental options)</li> <li>• \$20 (Wild Herd or over 10 parental options)</li> </ul>
<p><b>DNA Verification Price</b> (if you submit the DNA marker through your own account. WE have to verify that the animal or parents being tested are the same animal as an animal we already have in our DNA database. This is allowed only on a case by case basis. MDGA [for Miniature Dairy Goats or AGS for dairy goats if done through UC Davis is accepted.]</p>	<p>\$15</p>
<p><b>DNA Marker Testing</b></p>	<p>\$35 (our cost)          If 10 or more done at the same time, we will pay for the next animal's test at our cost</p>

**Why use us for your DNA (any breed or species... goat, cow, sheep, dog)?**

International Dairy Goat Registry, DBA  
(International Goat, Sheep, Camelid Registry, LLC)  
PO Box 462 Goshen, UT 84633

[idgrfiber@gmail.com](mailto:idgrfiber@gmail.com) <https://idgr-san-clemente-island-goat.com/>

- We have a DNA pedigree/registration database that will be reflected on your Registration Certificate IF you apply for the ELITE Certificate. View Certificate types at: <https://idgr.igscr-idgr.com/registration-process/compare-registration-and-pedigree-types/>
- If your herd is 90% IGSCR DNA tested (core brood animals), then you are considered an ELITE DNA IGSCR Breeder and will receive a Certificate for your wall or book
- Elite Breeders will be allowed to post on their facebook and websites that they are an elite breeder, the Elite Breeder Certificate and Seal
- Elite Breeders will be given a seat on our Breeder's listing under ELITE Breeders
- Accurate Registrations you can trust
- For those who submit 10 or more DNA samples at one time, we will give you a 40% reduction in the DNA testing prices

#### **IGSCR DNA Program at a Glance**

- New San Clemente Island herds must enroll their herd in the IDGR-IGSCR DNA program. Non-SCI breeders/herds currently have the option
- Enrollment in the IGSCR DNA program means that you at the least send in hair samples on every Registration Application
- Elite DNA Herd is one where 90 of your core breeding animals are IGSCR DNA tested
- Dairy goat breeders may submit DNA from their own accounts or from MDGA or AGS, if they choose not to submit the markers through our account. When you submit this to us, you agree to allow us to use the case number/animal for further parentage testing wherever we need it.
- San Clemente Island Goat breeders may choose to submit Markers through their own personal account for the goat they own only. That is if they choose not to test through our account.
- The Preferred method of Marker testing is directly through the IGSCR DNA account. Either you send us the hair and we submit, or you we send you the DNA lab order form.
- ALL parentage and analysis is completed through by extensive analysis partnership of IGSCR and UC Davis.
- If you paid for DNA on a goat you own, you will receive a DNA Summary that clearly outlines the result. These results may not be shared period. They are considered Medical Records and akin to human medical records. You may not receive results yourself of another person's animal. These DNA Records are for registry purposes for the purposes of correct registrations and pedigrees.

#### **Is your Registration for a goat whose parent is from Artificial Insemination or Embryo Transfer?**

- IGSCR DNA required on parents and goat being registered
- IGSCR, AGS or ADGA Accepted Semen or Embryo
- IGSCR, AGS or ADGA Artificial Insemination or Embryo Service memo must be supplied
